### **DETAILED ACTION**

This response is in reply to after final communication between Paul Grunzweig and Ex. Mitchell on November 13, 2007

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Grunzweig to place application in condition for allowance<sup>1</sup>.

The application has been amended as follows:

#### **CLAIMS**

Cancel claims 30 and 31.

In claim 8, Line 17 after "package" insert- -; whereby the wing portions of the respective support is substantially equal to a creep induced height of a solder connection--.

In claim 28, Line 15 after "package" insert- -; whereby the wing portions of the respective support is substantially equal to a creep induced height of a solder connection--.

#### ***Allowable Subject Matter***

---

<sup>1</sup> Paul Gurney contacted Ex. Mitchell regarding a discrepancy between what was indicated as allowed and objected in the prior office action. After review, the previous office action incorrectly indicated that

Claims 8, 10, 13, 14, 21, 23, 25, 28, 29 and 32-35 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

the prior art fails to show that the wing portions of the respective support substantially equal to a creep induced height of a solder connection including all the limitations of the independent claim.

In contrast the prior art as exemplified in Cromwell discloses its support and wing at a set height equal to its chip and connection. The prior art does not disclose or make obvious modifying the structure such that its support is reduced to substantially the height of the creep induced solder connection.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James M. Mitchell whose telephone number is (571) 272-1931. The examiner can normally be reached on M-F 8:00-4:00.
